1. NATURE AND CONTINUANCE OF OPERATIONS

Torrent Gold Inc. (formerly Raindrop Ventures Inc.) (the “Company”) is a resource exploration company focused on acquiring and exploring resource properties in the USA.

The Company was incorporated on February 14, 2018 under the laws of British Columbia. The Company’s head office is Suite 250, 750 West Pender Street, Vancouver, British Columbia, V6C 2T7 and the Company’s registered office is Suite 2200, 885 West Georgia Street, Vancouver, British Columbia, V6C 3E8. The Company is listed on the Canadian Securities Exchange under the symbol “TGLD” and the Frankfurt Stock Exchange (“FRA”) under the trading symbol RV0.

On March 30, 2022, all issued and outstanding common shares of the Company were consolidated on a 2:1 basis. All references to share, option, warrant and per share amounts have been retroactively restated to reflect the share consolidation.

The condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company and its wholly owned subsidiary’s functional currency.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with the International Accounting Standards (“IAS”), Interim Financial Reporting.

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit or loss, which are stated at their fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated interim financial statements and reported amounts of expenses during the year. Actual results could differ from these estimates.

These condensed consolidated interim financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the condensed consolidated interim financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimated uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to the following:

- 1) the carrying value and the recoverability of exploration and evaluation assets, which are included in the statement of financial position; and
- 2) deferred income tax asset valuation allowances.

2. BASIS OF PREPARATION (continued)

Going concern

These condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at October 31, 2022, the Company has an accumulated deficit of \$2,466,717 and has not generated any revenues since inception and expects to incur further losses in the development of its business. The ability of the Company to continue as a going concern depends on its ability to raise adequate financing and to develop profitable operations. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, and other business and financial transactions which would assure continuation of the Company's operations and exploration programs. In addition, management closely monitors commodity prices of precious metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company if favorable or adverse market conditions occur. These factors indicate the existence of a material uncertainty that may cast significant doubt the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

As the Company is in the exploration and evaluation stage, the Company has not identified a known body of commercial grade mineral on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company identifying a commercial mineral body to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the property.

Basis of Consolidation

These condensed consolidated interim financial statements include the accounts of the Company, which is incorporated under the laws of British Columbia, and its wholly owned subsidiary, Raindrop Ventures USA, Inc. which was incorporated in Nevada, USA on February 16, 2021. All significant intercompany balances and transactions have been eliminated upon consolidation.

Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company possesses power over an investee, has exposure to variable returns from the investee and has the ability to use its power over the investee to affect its returns. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

The subsidiaries of the Company are as follows:

Name of subsidiary	Incorporation	Interest October 31, 2022	Interest January 31, 2022
Raindrop Ventures USA, Inc.	Nevada, USA	100%	100%

5. EXPLORATION AND EVALUATION ASSETS (continued)

Nevada Gold Project, Nevada, USA

In March 2021, the Company closed the acquisition of an exploration portfolio consisting of three 100%-owned properties (Anchor, Stateline and Sandy) and three 49%-owned properties (Brik, Easter and Viper) (together, the "Properties") from Liberty Gold Corp. ("Liberty Gold"). In consideration for the Properties, the Company paid \$63,430 (US\$50,000) in cash and issued 2,006,703 common shares of the Company at a fair value of \$642,145 to Liberty Gold, representing 9.9% of the Company's issued and outstanding common shares on a post-closing basis at the time of the transaction. Liberty Gold also retained a 1.5% net smelter return royalty on certain of the Properties.

During the period ended October 31, 2022, the Company completed a transaction with an arm's-length company, in which the Company exchanged its 49% minority interests in both Easter and Brik for 51% majority interest in Viper plus receipt of a \$350,000 cash payment to the Company (received during the period ended October 31, 2022).

Clover Mountain Property, Idaho, USA

On September 1, 2018, the Company entered into a purchase agreement with Daniel Kunz and Associates, LLC to purchase 100% of the Clover Mountain property consisting of claims in Idaho, USA for 3,241,950 common shares of the Company at a fair value of \$129,678. Subsequent to the purchase agreement on September 1, 2018, Daniel Kunz became a director of the Company.

The Company held a reclamation bond for \$30,072 at October 31, 2022 (January 31, 2022 - \$30,072).

6. RELATED PARTY TRANSACTIONS

Key management personnel are the persons responsible for the planning, directing and controlling the activities of the Company and include both executive and non-executive directors, and entities controlled by such persons. The Company considers all Directors and Officers of the Company to be key management personnel.

During the period ended October 31, 2022, the Company incurred the following charges with related parties that include officers, directors, key management or companies with common directors of the Company as follows:

8. FINANCIAL INSTRUMENTS AND RISKS

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, currency risk, and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

(a) Capital management

The Company manages its capital to safeguard the Company's ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through short-term prospectuses, private placements, sell assets, incur debt, or return capital to shareholders. As at October 31, 2022, the Company is not subject to externally imposed capital requirements.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. As at October 31, 2022, the Company had a cash balance of \$697,934 and current liabilities of \$53,419. The Company is considered to be in the exploration and evaluation stage. Thus, it is dependent on obtaining regular financings in order to continue its exploration and evaluation programs. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash is invested in business accounts with quality financial institutions, is available on demand for the Company's programs, and is not invested in any asset-backed commercial paper.

(c) Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and receivables. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions. The Company's cash is held with a major Canadian based financial institution. Receivables are comprised of GST refunds from the Canadian government. The carrying amount of financial assets represents the maximum credit exposure.

(d) Currency risk

The Company and its wholly owned subsidiary's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company is not exposed to foreign currency risk.

(e) Interest rate risk

The Company is not exposed to interest rate risk.

(f) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. The ability of the Company to explore its mineral properties and future profitability of the Company are directly related to the market price of commodities. The Company monitors commodity prices to determine appropriate actions to be undertaken.

8. FINANCIAL INSTRUMENTS AND RISKS (continued)

(g) Fair values

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair value of cash is measured based on level 1 inputs of the fair value hierarchy.

The estimated fair values of other financial instruments, including receivables, due to related parties, loan payable and accounts payable and accrued liabilities, are equal to their carrying values due to the short-term nature of these instruments.

10. PROPOSED TRANSACTION (continued)

- ii. on the date that is fourteen (14) months following the Closing Date:
 - o US\$500,000 in cash; and
 - o The difference between 15% of the issued and outstanding Torrent Shares as constituted on such date and the previous amount of Torrent Shares issued to the Owner;
- iii. on the date that is twenty-six (26) months following the Closing Date:
 - o US\$1,000,000 in cash if the Owner or Torrent has entered into a joint venture or purchase agreement in respect of parcels of land and mineral rights adjacent to the Project that are controlled by third parties (the “**Additional Acreage**”), by the date that is twenty-six (26) months following the Closing Date. However, if by such date the Additional Acreage has not been acquired by either the Owner or Torrent, or has otherwise become the subject of a legally binding joint venture or purchase agreement with a 3rd Party in respect of the Additional Acreage, and Torrent elects to continue with the purchase, then a cash payment in an amount determined according to the following terms:
 - If the ninety (90) day NYMEX moving average is then equal to or less than US\$1,799.99 per ounce of gold, a one-time cash payment of US\$250,000; or,
 - If the ninety (90) day NYMEX moving average is then equal to or between US\$1,800.00 and US\$1,999.99 per ounce of gold, a one-time cash payment of US\$500,000; or,
 - If the ninety (90) day NYMEX moving average is then equal to or greater than US\$2,000.00 per ounce of gold, a one-time cash payment of US\$1,000,000; and
 - o the difference between 17.5% of the issued and outstanding Torrent Shares as constituted on such date and the previous amount of Torrent Shares issued to the Owner; and
- iv. on the date that is the earlier of the completion of the Technical Report (as defined below), or forty-two (42) months following the Closing Date, the difference between 19.99% of the issued and outstanding Torrent Shares as constituted on such date and the previous amount of Torrent Shares issued to the Owner.

After the Company has incurred a minimum of US\$6,000,000 of direct Project-related work expenditures comprising exploration and development, engineering, geological, management, modelling, technical support, core facilities and experts’ and advisors’ costs, the Company shall retain an independent technical consultant to prepare a technical report with respect to the Project (the “Technical Report”).

Upon completion of the Technical Report, the Owner is entitled to a bonus payment in an amount equal to US\$15.00 multiplied by each AuEq exceeding 450,000 AuEq, up to US\$7,000,000.

In connection with completion of the transaction, the company intends to undertake a non-brokered private placement to raise gross proceeds of up to \$3,000,000, the terms of which will be determined in the context of the market. Further information regarding the concurrent financing, including the final terms, will be announced in a subsequent news release. No finders’ fees or commissions are payable in connection with the transaction, although finders’ fees may be paid in connection with the concurrent financing.
